F O U N D A T I O N

**2007 PFIZER/AAFP Foundation Visiting Professorship  
Program in Family Medicine Award Recipient**

**Christiana Care Health System DFM – Wilmington, Delaware**

**Visiting Professor: William L. Miller, MD, MA**

**Lehigh Valley Hospital & Community Network**

**Summary of Program**

The visiting professorship aims to evaluate the overall design, flow, and function of the family medicine center and its alignment with the New Model practice, offering guidance on focused areas of change. The visiting professor, Dr. William Miller from Lehigh Valley Hospital and Health Network, will present an overview of his hospital's model of patient-centered care to faculty, residents and staff. Dr. Miller will offer expertise and guidance on the integration of a resident training curriculum and patient-centered care. During the visit there will also be an exchange of ideas on using quality/performance indicators for evaluation of faculty and residents. As a leader in family medicine research, Dr. Miller will discuss the importance of primary care research and its place in training programs to faculty and residents. He will also meet with key people from Christiana's research department to discuss the role of qualitative research and methodology.
