- Humanitarian Signature Program – *Family Medicine Cares*
Helping those in need, at home and around the world. *Family Medicine Cares* was created by the AAFP Foundation to address the health care needs of the underserved, both domestically & internationally. *Family Medicine Cares* provides patient care, delivers education & training in Family Medicine, supports free clinics, & works to improve the health and quality of life of men, women, and children in need.
- Education Signature Program – *Family Medicine Leads*
Focuses on the future of the Family Medicine specialty by supporting efforts to fill the workforce pipeline with the best and the brightest and by developing more and better-trained Family Medicine leaders. This will be accomplished by a year-round program that builds on the AAFP National Conference experience.
- Scientific Signature Program – *Family Medicine Discovers*
The AAFP Foundation and the AAFP National Research Network are partnering to establish the third and final signature program, *Family Medicine Discovers*. This partnership and signature program will contribute to advancing the vision of building research capacity in family medicine in an exciting new way. *Family Medicine Discovers'* vision is to cultivate scholarship and engagement among community family physicians to conduct innovative research projects with the potential for advancing new evidence and knowledge for Family Medicine.
- Family Medicine Philanthropic Consortium (FMPC)
The FMPC is a collaborative program of the American Academy of Family Physicians Foundation and the Constituent Chapters and Chapter Foundations of the American
